THOUGHTS FROM JEAN

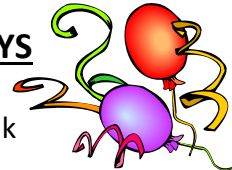

As I talk with many of you, I find that most of us have been so busy over the summer that we have wondered how the time has flown by. We have been vacationing, healing, caretaking, volunteering, working, parenting and grandparenting, organizing, and the list goes on and on. We are a busy group of enthusiastic women, for which I am grateful.

I look forward to this upcoming year together. We have some speakers planned on topics such as genealogy, Badger Girls State, and art integration as well as our literary contest and some social times to spend together. We will look towards some new ideas for grants for this coming year, so if you have ideas, bring them to our meetings.

I hope many of you are able to be at the salad luncheon on August 14th. We will enjoy touching base with those we haven't seen over the summer. Thanks in advance to Jacky for hosting this again at her home.
